NUMBER 1

Constable Chases Negro Who Offered Blind Horse at \$5

CONSTABLE
Constable Will Pitts had an exciting chase today when a negro he had under arrest jumped from a buggy and made a dash for liberty and a bullet from the officer's revolver evidently fired to frighten the black acted the wrong way. That is, the negro ran faster. He made a dash through A. Y. Malone's back yard and would have made his escape if his passage had not been blocked by another party.

Having had this experience with the negro who gave his name as Henry Baker and said he lived near Campbellton 11a, the officer decided to take no further chances and bound the prisoner around the waist with a heavy rope.

The negro whom the officers here gave a fine exhibition of lying about his name, is said to have offered a blind horse to John Kornegay for \$5. The cheapness of the animal aroused the suspicions of Mr. Kornegay who reported the incident to Constable Pitts, who took the prisoner before Justice Butler. The case is under investigation.

GIRL HUSKS 96.2 BUSHELS OF CORN IN TWO HOURS

Dothan, Ala., Nov. 26.—Miss Levlina Gingerich, aged 25, of Arthur today claimed the championship of women corn huskers in Central Alabama.

In fourteen days of ten hours each she husked 96.2 bushels.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally if You Eat Meat Regularly

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. It forms uric acid which clogs the urinary pores so they sluggishly filter or strain only part of the waste and poisons from the blood then you get sick. Nearly all rheumatism, head aches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful of fervescient lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Church Has Pastor But No Deacons, Says Rev. Lang

When he called at Police Court on business the Rev. C. A. Lang, who claims to be pastor of the Second Baptist church, colored, in Progtown, said the difference between himself and the deacons had been adjusted and that things were running along smoothly.

The deacons questioned the authority of Rev. Lang whom they sought to depose as pastor, and when asked today how the matter had been settled Lang said the church was operating without the services of a board of deacons.

Negro Found in Shop Held For the Police

When found in a negro press shop on Methodist Hill last night Higgle Ward, colored, was turned over to the police and locked up in the city jail. Under mysterious circumstances Ward was discovered in the place by other negroes who reported the matter to the police and held the man until the arrival of Officer J. O. Spivey. The shop was burglarized about a week ago and Ward is believed to have been mixed up in that affair.

The negro, who claims he came to Dothan from Clayton, tells a story at variance with that of his accusers. He claims that he was drunk and seeing an open window climbed into the house for a nap.

HUMANIZING THE ARMY

Desertions from the United States Army last year were lower than ever before in its history. The records show a rate of 3.1 per cent, but deducting cases of soldiers who simply overstayed their leave the actual percentage was 2.17.

Judge Advocate General Crowder attributes this low rate to legislation by congress mitigating the penalties imposed upon deserters and other military offenders. He gives the attempt to humanize the army has been eminently successful. The cause of desertion, he believes, now lies outside the service.

The figures and General Crowder's comments on them are sufficient answer to those who predicted that regulations mitigating the treatment of deserters would demoralize the service. General Crowder says the detention barracks system is completely vindicated. A year's trial indicates that much of the severity supposed to be indispensable to the maintenance of discipline is unnecessary.

The private in the regular army is now being treated more as a responsible man and this treatment automatically tends to produce an increased sense of responsibility.

There was no good reason for expecting any other result. People in civil life are learning that men who break the laws are still men, that they are entitled to reasonable treatment as human beings even though they are lawbreakers. Severity has reformed few people out of the army. Humane and considerate treatment has produced the better results both in and out of the mili-

ANNE MORGAN'S HOME USED BY SOCIETY BALLET

MISS ANNE MORGAN

New York, Nov. 26.—To further one of her pet child, Miss Anne Morgan, daughter of the late J. Pierpont Morgan, has turned practically her whole home at 4110 Avenue of the Arts into a society girls and young matrons who make up the caste of Pandora's Box. The Greek ideal to be kept in mind the aspects of the American Committee in the Sixth Regiment Army on Friday and Saturday, December 4 and 5. The house driving room has been given over to the ballet and it is there that the members of the caste are spending most of their nights and days perfecting themselves in the roles allotted them. The object of the late Miss Morgan is to raise funds to maintain the American Beauty Opera and the Tadmor House which was organized for the purpose of helping self-supporting girls and women to a comfortable home and healthful and proper vacation.

MINERS ARE RELEASED BY FEDERAL COURT

Fort Smith, Ark., Nov. 26.—Michael Reim and Marvin Standfield, the last two of the miners arrested on indictments returned by the Federal grand jury which yesterday completed its investigation of the Hartford Valley Mining troubles today were released from jail on bond. Four others were given their liberty last night. Reports from Prairie Creek today said everything was quiet.

SWEARS OFF SMOKING AFTER SEVENTY YEARS

Middlebury, Vt., Nov. 26.—John W. Stewart, 89, has announced that after having smoked tobacco for 70 years, he intends to give up the habit.

BUSTER ACCIDENTALLY SHOT

Opeka, Ala., Nov. 26.—Park Langley, son of Ed Langley of this place, a young man about 16 years of age, was accidentally shot in the arm this morning while hunting at Sholtos' Mill five miles west of the city. Two surgeons were immediately summoned to attend the young man, and a telephone message states that in all probability his arm will have to be amputated.

He gets your choice. R. J. Rids. See them first. Phone 217. 409 F. Main street. Mrs. J. W. Baughman.

B. F. Webb of Webb was in the city today shopping and attending to other business.

J. H. Stanley of Haleburg, was in

\$49.45 RAISED FOR BELGIANS

About 1,000 articles of wearing apparel collected by the Boy Scouts and \$49.45 obtained by a collection at the Foster Street Methodist church at the Thanksgiving service yesterday will go towards the relief of war-torn Belgium.

The money was turned over to a committee of three at the church with the instructions that it be sent to the proper officials directing the Belgian relief fund work.

Negroes Get 6 Months On Thanksgiving Day

When the question arose as to the legality of holding court on Thanksgiving, Justice of the Peace J. W. Butler investigated the law and found that cases may be tried on any day except Sunday.

Following the knowledge of the law in this matter four negroes arrested by Rosa Hornsby near the Atlantic Coast Line passenger station yesterday on a charge of vagrancy were tried and given six months hard labor on the county work as a Thanksgiving penalty.

AMERICAN SOLDIERS ARE BACK ON HOME SOIL

Five Army Transports Bring General Langston and His Expeditionary Forces Back to U. S.

Galveston, Tex., Nov. 26.—Five army transports today brought General Frederick Langston and more than 4,000 soldiers of the United States expeditionary force from Vera Cruz to Galveston. The chartered steamer Antilla brought 1,000 American and Mexican officers.

Through the midst of a rainy Thanksgiving the little fleet moved into port during the afternoon greeted by saluting guns and cheering crowds. With the flagship Cristobal flying the two starred banner of the major general were the transports Kilpatrick, McEllahan, Kanish and Sumner. The Sumner was the last to arrive.

Among the passengers were a number of custom house employees from Vera Cruz.

Owing to flooded conditions at the army camp where the soldiers will remain on the transports for several days.

On the Cristobal is \$1,600,000 in gold representing customs money collected at the port of Vera Cruz during American occupation.

INCORPORATION PAPERS FILED

The Ashford Hardware and Supply Company filed incorporation papers at the Probate Office yesterday, giving the authorized capital stock at \$10,000. The concern takes over the business of the Ashford Hardware Company. The officers and incorporators are C. H. Davis, Columbia, president; C. E. Culbreth, Ashford, vice president; F. A. White, Ashford, secretary. The company will engage in the hardware and gen-

Thanksgiving Day is Observed Very Quietly

Thursday, Thanksgiving day passed off in Dothan very quietly in police circles, only a few arrests being made, and these on minor charges.

The crowds at the circus were not large, but very orderly. At the union Thanksgiving services at the Foster Street Methodist church at 11 o'clock in the morning a good person appropriate to the occasion was preached by Rev. W. H. Tew, and a neat Anna was realized for the Belgian relief fund. In the afternoon the picture shows downtown had fairly good crowds. Various parties were out motoring during the day as the weather was fine for this sport. Huntsmen were also on the job, and much game was bagged by those who favor such pastime as a bird hunting.

FRENCH RIGHT THE DEPARTURE OF HERIUCK

Cherbourg-Orleans, Department of Sarthe, France, Nov. 26. Via Paris.—Baron D'Estournelles de Constant and a large number of his colleagues in the senate have joined in sending a telegram to Myron T. Herrick, the retiring American ambassador, in which they express their regret at the departure of the American diplomat.

We express our profound recognition," the dispatch says, "of all the good you have done since your arrival in Paris, particularly your generous unremitting and efficient devotion during the detestable war against France and civilization. Our fraternal wishes follow you to the United States. We hope that you, Mrs. Herrick and your children will return some day to our shores, where we will faithfully keep a place for you."

Sam Matthews and Fred H. Martin visited Herrick yesterday.

Mrs. R. C. McCarty of Bloomburg is visiting relatives in Dothan.

A letter never knows what it means to get a good rest.

Preacher Comes to Rescue of Negro Woman for Slashing Rival

Hereafter "colored ladies" are going to think twice before they attempt to usurp the affections of the husband of Neely Harvey, who cut her rival, "Charity," about the arms and shoulders in a fight at the show grounds last night, the difficulty taking place when Neely found her lawfully wedded spouse with the other woman.

When Acting Mayor A. D. Whiddon called the case Friday morning "Charity" was at home nursing a badly lacerated arm and shoulder, which Neely carved as if she was preparing a Thanksgiving turkey for dinner. Neely had no apologies to make for slashing the woman, but sought the mercies of the court and pleaded guilty to the charge. She was fined \$20 or sentenced to sixty days hard labor.

The testimony did not show when or how "Charity" met the husband of Neely Harvey, but they were together at the show grounds when Neely appeared on the scene with

WHIDDON ACTS GIRL FIGHTER

The pernicious habit that negro men have of slashing women with knives, striking them with their fists and otherwise figuring the female of the species of the colored family, has proved the displeasure of Acting Mayor D. Whiddon.

In Police Court today Mr. Whiddon told Fritz Godwin, colored, that if he must fight to select a man to leave the colored girls alone. The evidence showed that Fritz was a girl of his race a black eye on Thanksgiving remembrance. The girl is probably thankful that she did not get two black eyes. Fritz is probably thankful that his wife was no more than \$20 or sixty days hard labor for the city. "I am going to fine you boys \$50 in cases like this hereafter if you don't quit fighting the girls," said the Acting Mayor.

GOVERNMENT REFUSES REQUEST FOR PASSPORT

Washington, Nov. 26.—Many applications by naturalized Americans for passports to visit their native lands are being refused by the state department. Officials require it be clearly shown that the purpose of the applicant is to make only a short business visit and that he has no intention to seek exemption from local obligations while abroad because of his American citizenship. The issuance of passports to children born in this country of alien parents also is being closely supervised.

IF ACE PRAYERS ARE PRAYERS

New Orleans, La., Nov. 26.—Prayers for the early restoration of peace to the European countries at war featured Thanksgiving services held here today. Many of the collections taken were donated to the Red Cross, while at once others they were set apart for Belgium Relief. At the union service held at three leading Jewish congregations of the city, the entire audience joined the choir in singing "America."

GOVERNMENT BY NEWSPAPERS.

By E. W. Howe.

No man has a greater responsibility than the manager of a bank. He is the custodian of other people's money, and it is left with him not only because of confidence in his honesty, but also because of confidence in his judgment.

When the present foreign war began, managers of banks took such steps as seemed necessary for safety; whereupon the newspapers accused them of hoarding money, of denying reasonable credit, and of usury.

What do the editorial writers on newspapers know about banking? and what right have they to viciously attack honorable and useful business men who do exactly what they should do?

No respectable banker—and most of them are respectable—hoards money, denies reasonable credits when he has funds, or charges extortionate rates.

What right has the editorial writer on a newspaper, who knows nothing about banking, to decide on the details of a banker's business, and tell him what men are worthy of credit, or what is a safe reserve?

Bankers are as high class business men as we have; and business men are the best men we have. Are they not to be permitted to exercise their judgment in profiting their depositors? Will the politicians and newspapers insist upon running the banks as well as the railroads?

There are a hundred thousand bankers in this country who know more about their business than the secretary of the treasury can possibly know; they are as honorable as the secretary of the treasury, and as intelligent, and for this grand-motherly official to scold the bankers for taking precautionary steps they believe to be necessary, is important.

And it is impertinent for newspapers to accept the views of this accidental great man, and anoint him in maligning worthy men for political reasons.

Ever occur to you that the newspapers, and not the people rule?

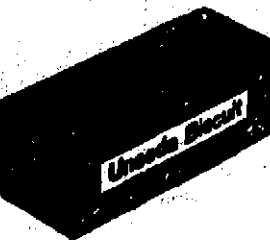

We have a free press, and may find it necessary finally to restrict it a little.

When you are fiercely demanding the freedom of the press, does it ever occur to you that you are bolstering up the rights of another man to read you?

The press takes too many liberties with the liberty the people have won. The New York State-Zeitung of September 16, 1914, says the people of the United States believe Germany is in the wrong in the present war because we have allowed her to be of that opinion.

Always look for that Name

by "Great Britain, our master."

"England is allied with yellow stick-apes," says another New York publication, "and glories in the assassination of German men and the rape of German women."

This was printed in English by a New York publication, October 14, 1914.

"Let The Fatherland challenge the American press to defend the barbarism of the Colorado militia in shooting down helpless women and children. When they have done this they will be qualified to speak of the 'cruelty' perpetrated by German soldiers."

It has long been known by everybody that no women or children were shot down by militiamen, or anyone else, in Colorado. Yet the story appears again; this time in a publication established especially to advocate "fair play."

Every man, in exercising liberty, occasionally goes too far. We promptly suppress all such, except that editors are not suppressed when they go too far.

A GOOD SIGN.

There are some renters over this section of the country who have quit their crops before they were gathered. They figured that they would get but little or nothing out of them anyway, and left their landlords with the bag to hold. But this kind of information is spreading rapidly, and the man who quit his landlord before the crop was gathered, is having a hard time finding a place to live for another year. Landlords are making vigorous inquiries about the past reputation of tenants and unless a man has a good reputation for acting honest, he

will walk the road and work by the day, or do without farm work.

This is one good sign. Of course, many croppers are going to get little from their crops, but the landlords are going to get little, also.

The thing that will save this country will be that class of people who act honest about their debts. Many cannot pay, but they can at least do the right thing, and no one has to be told what is right.

WE MUST HAVE A PERMANENTLY SELF-SUSTAINING AGRICULTURE.

The Progressive Farmer.

And that reminds us that when in Washington City a few days ago we called to see Dr. Thomas N. Carver, of the Rural Economics Division of the United States Department of Agriculture. "Every now and then," he said, "I see somebody is advising your farmers to quit cotton as a money crop. I don't believe that is a good idea at all. But there is one thing that ought to be everlastingly emphasized and that is that it is the first duty of a farm to feed the farmer's family and his animals. Wherever you find a rural population who aim first of all to support themselves, and then have the money crop as a surplus crop, there you find a prosperous people. But wherever the farm does not fulfill this fundamental requirement—namely, that it must first of all sustain the family—there you usually find a poverty-stricken people, no matter how great advantages they seem to have in money crops."

We believe Dr. Carver is everlastingly right. We are denouncing strutting that the South is the Corn Belt and the Livestock Belt. In fact, with our longer growing seasons and our opportunities for winter and summer legumes, about the only crop the Cotton Belt should rely on the North to furnish is wheat. And the thing to do now is to set to work not merely to change our system long enough to save us from the predicament we are now in, but to bring forth fruits most needed for permanent repentance and reformation.

We ought to remember this, that if there hadn't been any war at all, we should probably be terribly upset anyhow about cotton prices. In fact, nearly every other year we get upset. Cotton throws us nearly every other time we try to ride it—one time in three anyhow. We have just been looking through some old files of the Progressive Farmer and we find we have just about the same panic over cotton about every third year. In fact, the cotton panic seems to come about as regularly as the seventeen-year locust, or as an old drunkard's spree. We almost ruin ourselves, and then swear off, and gradually get back to drinking tremens again.—The Progressive Farmer.

TRY THIS IF YOU HAVE DANDRUFF

Or Are Bothered With Falling Hair or Itching Scalp.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

In morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

WHAT BAD EYES MAY MEAN TO A NATION.

Many people think but little of the consequences of bad eyes, unless blindness, or very sore eyes are threatened or present. Such conditions are terrible, but they do not threaten the people or state as much as other eye diseases that are not apparently pitiable.

People who are blind or whose eyes are hopelessly diseased are usually taken care of in institutions and do not become a menace to the public. But school children whose eyes look all right, but who have certain diseases or defects that render study and education a hardship, may become a danger to other people. A school child born with an undetected cataract, or very near-sighted so that he cannot see the blackboard, soon falls behind his class and becomes discouraged with his school life. A child with far-sight, or astigmatism, or some muscular defect of the eyes, by which, when he studies his eyes pain and he suffers from headache will contract a dislike for books, study and education, and will perhaps be punished or kept after school for something for which he is really not to blame? Such children, their educational progress embarrassed or almost stopped by reason of uncorrected physical defects, soon acquire a loathing for education and all that education represents, and the seeds of idleness and irresponsibility being sown, may develop into criminals and dependents. No flight of fancy is required to transform such children into the non-supporting "pet" or "dolly," the wandering and menacing tramp, or the idle pleasure-seeking and misery finding prostitute. Bad eyes that hinder education mean a disate for school, idleness, truancy, bad associates and habits, drinking, gambling, stealing, murder, prison and the gallows may follow. This is no fancy picture. It can be proved by observation and statistics. Visit the criminal courts, the reformatories, the jails and prisons, and how often do you find lawbreakers from the ranks of the educated. Some, it is true, are natural criminals, the offspring of criminal parents, but even here there must have been a learning, proceeding some generation back, perhaps from some ancestor who was deprived of proper training, education, possibly by bad eyes. The great mass of criminals, however, are not born offenders, but become so through associations and lack of a cultivating and ennobling education, which is of course, practically impossible, if bad eyes or other defects prevent a suitable education. Education is one of the greatest barriers to crime and poverty. It is therefore essential that our children, the coming generation, should be well educated, and that bad eyes, or any other physical or mental defects, should be detected and corrected, in order that the requirement of an education may become as easy and agreeable as possible.

MOST TERRIBLE PUNISHMENT IN THE WORLD.

Political offenders in parts of Mongolia are punished by lifetime immolation in coffin-like boxes stored away in dark dungeons. The horrors of this punishment are graphically portrayed in the cover design of the December Popular Mechanics Magazine. The boxes are only large enough to contain a man. There is but one aperture, and that no larger than his head. His hands are manacled, and twice a day attendants bring food and drink, which are placed in the shackled hands outstretched, which are his only communication with the world. Many highly educated Chinese, so it is said, are imprisoned here.

PASSENGER AUTOMOBILE HAS EIGHT-CYLINDER ENGINE

The most striking innovation in automobile design announced for 1915 is a passenger car equipped with an eight-cylinder engine, recently brought out by a well known American manufacturer. While some racing cars have heretofore been equipped with eight cylinder engines, this is believed to be the first pleasure car commercially manufactured in the United States having more than six cylinders. A picture of this engine is a feature of the December Popular Mechanics Magazine.

MARRIAGE AND DIVORCE.

(Portland Journal.)

Last year, Governor Ferris of Michigan, appointed a commission to revise the marriage and divorce laws. Bills which will be submitted to the Legislature next year have been prepared.

The commission has attempted solution of the divorce problem by providing against secret and hasty marriages. It is proposed that the marriage license must be applied for thirty days before the wedding and the fact published for six weeks. Any person may file objections with the county clerk.

The commission also proposes that divorce decrees be suspended for three months, during which time the party to which the decree is granted may surrender it and the decree become effective. Speedy court action is urged, and the commission recommends that the prosecuting attorney be made an advisor of the court to see that divorces are not procured fraudulently or by collusion.

There is a general agreement that solution of the divorce problem depends largely upon revision of the marriage laws. Too many enter matrimony without realizing that it is a solemn contract between man and woman. There are too many marriages where the parties give little or no heed to what they are doing and the obligations they are undertaking.

They are bound to be minutings under any system devised by man, but the relatives number can be reduced by requiring publicity and reasonable delay. If the marriage and divorce problem can be solved by the individual States, Michigan is headed right. Fewer hasty and ill-considered marriages will mean fewer disrupted families and few children with a bad start in life.

Kitchener Cut the Red Tape.

From The World's Works.

It was in the Kitchener campaign that Lord Kitchener's abhorrence of red tape was first impressed upon whom it concerned. A certain General, who may be called Fussman, insisted upon issuing a daily order, with all due forms and ceremonies. So infortunate was he that in sheer weariness Kitchener at last dictated an order. Buoyed up by a blissful sense of importance Fussman hurried off to have it duly copied, registered, duplicated, sealed, signed and delivered in the good old style. Meanwhile Kitchener strolling out, accidentally met Broadwood, his cavalry commander.

"Oh, Broadwood," exclaimed Mr. Kitchener in his softest drawl, "will you kindly take four squadrons and a couple of guns and push on forty miles to clear up the situation and start in half an hour?"

"Very good, sir."

As the cavalry man flinging out of camp Fussman came out of his tent with the order of the day. Upon finding that Broadwood's orders were totally different from the formal version entrusted to him by the commander, Fussman gave Kitch-

PLANTING ORCHARDS ON STEEP HILLSIDES

An ingenious method has been adopted by a California fruit grower for utilizing steep hillsides for the planting of fruit trees. At regular spacings he built semi-circular walls of cement and cobblestones, the walls curving outward from the hillside and forming retaining walls for holding the soil to a level surface. Trees were then planted in the centers of these level spaces. A picture of these hillside orchards appears in the December Popular Mechanics Magazine.

MISSIONARY SOCIETIES TO GIVE BAZAAR AND OYSTER DINNER

The missionary societies of the Foster Street Methodist church have decided upon Thursday, December 10th, as the date for their Bazaar and oyster dinner. We shall greatly appreciate the ladies and girls of the city calling on bus before purchasing Christmas presents.

BILLIARD TABLES THAT REST ON SOLID ROCK

Billiard tables supported on solid rock are among the novel features of a 26-room concrete residence located on one of the islands of the San Juan Archipelago in Puget Sound. Each table rests on a massive concrete base which extends through an opening in the floor and has its footing on bedrock, and is therefore as solid and as free from vibrations as if it were a part of the island itself. From the December Popular Mechanics Magazine.

HAD HYSTERICIS AND FAINTING SPELLS

Asbury Park Woman Had Complete Nervous Breakdown—Restored to Health by Vinol.

Asbury Park, N.J.—"I was in such a nervous, weak, run-down condition that I could not sleep nights, every little thing disturbed me, my appetite was very poor, and I was losing flesh. I was so nervous at times that I used to faint and have hysterics. I do my housework for a family of four, and they became alarmed at my condition. I tried beef, iron and wine and cod liver oil capsules without benefit. One day our druggist suggested that I try Vinol and told me how it had helped others. I did so, and it has simply done wonders for me, as I am a well woman and entirely cured of my nervousness."—Mrs. KATHERINE E. KLEIN, Asbury Park, N.J.

Such reliable testimony should convince others of the value of Vinol, therefore if you are worn out, weak and nervous and want new strength and more vitality, we ask you to take Vinol, our delicious cod liver and iron tonic. If it fails to benefit you we give back your money.

Vinol is a constitutional remedy for all weak, nervous and run-down conditions of men, women and children. N. H. McCallum, Druggist

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful, dark shade of hair which is so attractive use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cents bottle of "Wyeth's Sage and Sulphur Compound" which darkens the hair so naturally so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur, is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

OLD FRIEND OF MINE.

Old friend of mine, if you shall cross the tide

Before my bark lets go,

You watch for me upon the other side;

You watch and wait with him our Peerless Guide.

If first you cross the tide.

Old friend of mine, if you shall learn the way

Before I hear the call.

You whisper through the misty maze some day

The password that is best for me to say—

If first you learn the way.

Old friend of mine, from battlements on high,

If yonder first you stand,

Wave back some message you may cheer us by

And spur us on to dare to do or die,

From battlements on high.

Old friend of mine, if you shall see the King

Before I kiss his hand

Wait back to me some strain that there you sing.

Some note to still this longing wondering.

If first you see the King.

—John R. Clements in The Boston Transcript.

Book Party Given by Miss Carmichael.

One of the many delightful Thanksgiving affairs was the book party given by Miss Iona Carmichael at the home of her parents, Mr. and Mrs. D. C. Carmichael on North Oates street.

In the reception hall brass baskets of Christmas cactus were the lovely decorations used. Vases of paper white narcissi were placed here and there in the dining room, a large white cake baked in plum sauce, and holding fifteen brightly burning candles formed the attractive centerpiece on the table.

Tables were arranged in the reception hall and parlor for book and after several exciting games, a tempting lunch was served.

The fortunate guests were Miss Thelma Parker, Miss Grace Faircloth, Miss Gladys Whatley, Miss Willie Mae Whatley, Miss Eva Glenn, Miss Marie Spann, Miss Sara Owens, Miss Louise Morgan, Messrs. Denny Newton, Arthur Malone, A. R. Carroll, Tyn Cobb, Clark Hannah, Norman Spann and Charles Blann.

Elwell Auction Club.

The members of the Elwell Auction Club and a few friends were delightfully entertained by Miss Evelyn Farmer this morning at ten o'clock.

Bridge was played at two tables the final count showing that the final count showing that Mrs. Joe Bennett was the winner of the

At noon a delicious lunch was served.

The players included Miss Alice Watford, Mrs. T. M. Barnett, Mrs. Edward Cannady, Mrs. Joseph Bennett, Mrs. G. Marvin Lewis and Miss Janie Farmer.

Thanksgiving Dance.

The Thanksgiving dance given by a number of young men at the club rooms, was a thoroughly enjoyable affair. The visitors included Misses Marie and Martha Moye and Messrs. Maurice and William Jacobs of Outhbert, Ga., Miss Frances Campbell of Dawson, Ga., and Miss Odell Hunt of Columbus, Ga.

Misses Marie and Martha Moye, of Outhbert, Ga., are the guests of Miss Ross Henderson and Miss Minnie Cave.

Of Interest to Music Lovers.

Admirers of Miss Geraldine Farrar are greatly interested in the reports from New York of the success she scored in a recent revival of Bizet's opera "Carmen," at the Metropolitan Opera House. New York critics in their reviews of the performance, declare that Miss Farrar is the best "Carmen" America has seen since the character was made famous by Madame Emma Calve, and that her interpretation of "Carmen" does not suffer in comparison with that of Madame Calve.

The Metropolitan Company has contemplated the revival of the opera since its last appearance in 1908, but until Miss Farrar consented to sing the role no artist could be found who would make even an acceptable "Carmen." Plans were made for a revival of the opera last year, and the New York performance was to have been followed by its appearance in Atlanta, but there was some hitch in the plans and Miss Farrar confined her activities for the season to roles in which she had already scored brilliant successes.

All of the New York critics, usually loath to give praise to singers appearing in new roles, pay high tribute to Miss Farrar's work as "Carmen." A fair example of the praise accorded here is the following excerpt from The New York Sun:

"She was indeed a vision of loveliness, never aristocratic yet never vulgar, a seductive, languorous, passionate 'Carmen' of the romantic gypsy blood. . . . Of the subtleties of her impersonation more must be said in the future, but it should be recorded that it was admirable in its denotement of the characteristics of the woman whom she aimed to set before the audience. It was consistent. It was direct. It was vital. It was full of imagination and delicate touches of art. And, above all, it was beautifully sung. Miss Farrar has never sung anything else better, and hardly anything else so well. . . . If Miss Farrar's 'Carmen' is not accepted by the public as one of her best roles it will be a matter of astonishment."

Mr. and Mrs. G. C. Hall of Montgomery, were in Dothan Thursday the guests of Editor and Mrs. W. T. Hall, Mr. and Mrs. S. T. Hall and Mr. and Mrs. E. C. Hall. Mr. G. C. Hall is Associate Editor of The Montgomery Advertiser.

Editor Ed M. Johnson, of The Headland Standard spent Thursday in Dothan with relatives and friends.

Dr. H. B. Dowling and daughter, Leah, of Ozark, are spending the day with Mr. and Mrs. W. R. Flowers. They are accompanied by Dr. and Mrs. Judson Dowling, who are returning from a honeymoon trip.

Miss Mary Lee Ramage and Corinne Lee spent Thanksgiving day in Pinckard, the guests of friends.

LODGE MEETING TONIGHT.

There will be a regular meeting of Dothan Chapter 113, R. A. M., tonight at 7:30 o'clock. By order of the High Priest.

S. Lisenby, Sec'y.

CROKER, 73, WEDS INDIAN PRINCESS

New York, Nov. 26.—Richard Croker, former "Tammany boss," and Miss Beniah Benton Edmundson a singer, suffragist and descendant of the Cherokee Indian Chief Blue Jacket, were married secretly here this morning. The bride, who is said to be a Princess in the Cherokee Tribe, met Mr. Croker a number of years ago in the West. She has lived in the city for some time, writing, lecturing and singing. She first came into notice about a year ago, when attired in the robes of an Indian chief's daughter she rode in the suffrage parade in this city.

The marriage took place in St. Agnes Roman Catholic church, with Mr. Henry Brann officiating. The bride became a convert of the Roman Catholic faith several weeks ago in preparation for the event. Mr. Croker's best man was Andrew Freedman, his lifelong friend.

After the wedding ceremony Mr. Croker and his bride went to the home of Nathan Strass, where a wedding breakfast was served. The honeymoon will be spent at Palm Beach.

In obtaining the marriage license Mr. Croker gave his age as 73, whereas it had been supposed he was only 71. His bride is 23.

ONLY SURE CORN CURE EVER KNOWN

"Get-it" the New Way. 2 Drops Do It.

To endure the pains and tortures caused by a little thing like a corn is ridiculous, simply because it is unnecessary. The new plant corn cure, "GETS-IT" is the first one ever known to remove corns without fail. Without pain and without trouble.

This is why it is the biggest selling corn cure in existence today. It is now used by millions because it does away with stick tape, with plaster and cotton rings that shift their positions and press down onto the corn with salves that "raw up" the toe, with "harnesses" that cause pressure and pain, with knives, razors and files, clawing and pulling at a corn.

"GETS-IT" is applied in two seconds. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels, vanishes. Accept no substitute. Try it on any corn, wart, callus or bunion tonight.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

For sale in Dothan by N. H. McCallum, W. L. Brown and M. A. Ellison Drug Co.
